Did you know?

- Screentime includes TV, computer, Playstation, and Gameboy. All are important to limit.
- American children and adolescents spend 22-28 hours per week viewing television, more than any other activity except sleeping. By the age of 70 they will have spent 7 to 10 years of their lives watching TV.
– The Kaiser Family Foundation
- Watching TV is associated with more snacking and increased obesity.
- Too much TV has been linked to lower reading scores and attention problems.
- Healthy Screen Time:
 - No TV/computer under the age of 2
 - No TV/computer in the room the child sleeps
 - One hour of educational TV/computer time between ages 2 and 5
 - After the age of 5, 2 hours or less

Redy's Rules

Tame the TV and Computer!

Participate – keep TVs, computers, DVD players, and video games out of your child's room.

- Having the TV in a common room makes watching a family activity.
- Watch TV with your child and discuss the program. Ask them questions and express your views.
- This will also let you know what your children are watching.

Set Limits – know how much TV your child is watching.

- Set some basic rules such as no TV or computer before homework or chores are done.
- Do not watch TV during mealtime.
- Use a timer. When the bell rings its time to turn off the TV or eliminate TV time during the week.

Tips from Redy

Help your child plan television viewing in advance.

- Keep books, magazines, and board games in the family room.
- Make a list of fun activities to do instead of being in front of a screen.
- Set family guidelines for age-appropriate shows.

Be a Role Model.

- Follow your own rules. Because children model behavior, set a good example with your own TV viewing habits.
- Avoid watching programs containing adult content when your child is in the room or nearby.
- Have the family help with dinner. It gets them involved and shows them helping is important.
- Put on music and let the kids dance.
