Greeley, Colorado

HOW TO FIGURE YOUR OWN TAXES

If your property is in an incorporated town, multiply its valuation by the General, School District, Special District and Town Total Mill Levy, which is the last item opposite your town as shown in the table headed "Incorporated Towns".

If your property is not in an incorporated town, multiply its valuation by the appropriate "Total Combined Levies" according to your School District, Rural Fire District and Sanitation District. Obtain this total mill levy from the tables headed the "Combination of Tax Levies Applicable by School Districts" and "Total Combined Levies".

GENERAL INFORMATION

The Assessor's Office has nothing to do with the making of the several levies when they are within the limits provided by law but has jurisdiction relative to the valuation of real and personal property of the county, except railroads, telegraph companies and other public utility corporations. This office figures and extends the tax and completes the rolls. When finished and balanced these are delivered to the County Treasurer for collection.

State Tax Levies are made by state officials.

The amount of the school district budgets is determined by the school boards and voters of school districts.

City and town tax levies are made by city and town boards.

County tax levies are made by the County Commissioners.

Irrigation district and drainage district taxes are made by the district boards.

Personal property tax becomes delinquent May 1, 1961, and if not paid by August 1 will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 5, 1961 and sold December 4, 1961.

Taxes for 1960 are due January 1, 1961. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid prior to March 1, and the second half prior to August 1. From March 1 to August 1 the first half bears interest at the rate of 1/2 per cent per month or fraction thereof. The total amount of taxes due may be paid on or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1 and bear interest at the rate of 2/3 per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your **SCHEDULE NUMBER** and **TAX DISTRICT NUMBER**. DO NOT REFER TO YOUR STREET ADDRESS.

At Johnstown, in Weld County, The Great Western Sugar Company carries on the most unique operation in the world for recovery of useful products from sugar beet by-products. Pure sugar comes from the molasses refinery at the left which combines with the factory on the right to produce MSG (Monosodium Glutamate), LPC (Liquid Protein Concentrate) and Potash fertilizer.

HOW TO FIGURE YOUR OWN TAXES

If your property is in an incorporated town, multiply its valuation by the General, School District, Special District and Town Total Mill Levy, which is the last item opposite your town as shown in the table headed "Incorporated Towns".

If your property is not in an incorporated town, multiply its valuation by the appropriate "Total Combined Levies" according to your School District, Rural Fire District and Sanitation District. Obtain this total mill levy from the tables headed the "Combination of Tax Levies Applicable by School Districts" and "Total Combined Levies".

GENERAL INFORMATION

The Assessor's Office has nothing to do with the making of the several levies when they are within the limits provided by law but has jurisdiction relative to the valuation of real and personal property of the county, except railroads, telegraph companies and other public utility corporations. This office figures and extends the tax and completes the rolls. When finished and balanced these are delivered to the County Treasurer for collection.

State Tax Levies are made by state officials.

The amount of the school district budgets is determined by the school boards and voters of school districts.

City and town tax levies are made by city and town boards.

County tax levies are made by the County Commissioners.

Irrigation district and drainage district taxes are made by the district boards.

Personal property tax becomes delinquent May 1, 1962, and if not paid by August 1 will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 3, 1962 and sold December 3, 1962.

Taxes for 1961 are due January 1, 1962. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid prior to March 1, and the second half prior to August 1. From March 1 to August 1 the first half bears interest at the rate of 1/2 per cent per month or fraction thereof. The total amount of taxes due may be paid on or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1 and bear interest at the rate of 2/3 per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your **SCHEDULE NUMBER** and **TAX DISTRICT NUMBER**. **DO NOT REFER TO YOUR STREET ADDRESS.**

HOW TO FIGURE YOUR OWN TAXES

If your property is in an incorporated town, multiply its valuation by the General, School District, Special District and Town Total Mill Levy, which is the last item opposite your town as shown in the table headed "Incorporated Towns".

If your property is not in an incorporated town, multiply its valuation by the appropriate "Total Combined Levies" according to your School District, Rural Fire District and Sanitation District. Obtain this total mill levy from the tables headed the "Combination of Tax Levies Applicable by School Districts" and "Total Combined Levies".

GENERAL INFORMATION

The Assessor's Office has nothing to do with the making of the several levies when they are within the limits provided by law but has jurisdiction relative to the valuation of real and personal property of the county, except railroads, telegraph companies and other public utility corporations. This office figures and extends the tax and completes the rolls. When finished and balanced these are delivered to the County Treasurer for collection.

State Tax Levies are made by state officials.

The amount of the school district budgets is determined by the school boards and voters of school districts.

City and town tax levies are made by city and town boards.

County tax levies are made by the County Commissioners.

Irrigation district and drainage district assessments are made by the district boards.

Personal property tax becomes delinquent May 1, 1963, and if not paid by August 1 will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 1, 1963 and sold December 2, 1963.

Taxes for 1962 are due January 1, 1963. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid prior to March 1, and the second half prior to August 1. From March 1 to August 1 the first half bears interest at the rate of 1/2 per cent per month or fraction thereof. The total amount of taxes due may be paid on or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1 and bear interest at the rate of 2/3 per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your **SCHEDULE NUMBER** and **TAX DISTRICT NUMBER**. **DO NOT REFER TO YOUR STREET ADDRESS.**

Home Light and Power Company is an investor-owned electric utility in its 54th year of service to Greeley and the central portion of Weld County. Serving more than 16,000 horsepower of irrigation pumping in a large agricultural area, it is probably the largest supplier of that type of power in the State of Colorado.

The Company is the largest utility in Weld County and its substantial investment in power lines, substations, and other electrical distribution equipment makes it the second largest single taxpayer in the county.

HOW TO FIGURE YOUR OWN TAXES

If your property is in an incorporated town, multiply its valuation by the General, School District, Special District and Town Total Mill Levy, which is the last item opposite your town as shown in the table headed "Incorporated Towns".

If your property is not in an incorporated town, multiply its valuation by the appropriate "Total Combined Levies" according to your School District, Rural Fire District and Sanitation District. Obtain this total mill levy from the tables headed the "Combination of Tax Levies Applicable by School Districts" and "Total Combined Levies".

GENERAL INFORMATION

The Assessor's Office has nothing to do with the making of the several levies when they are within the limits provided by law but has jurisdiction relative to the valuation of real and personal property of the county, except railroads, telegraph companies and other public utility corporations. This office figures and extends the tax and completes the rolls. When finished and balanced these are delivered to the County Treasurer for collection.

State Tax Levies are made by state officials.

The amount of the school district budgets is determined by the school boards and voters of school districts.

City and town tax levies are made by city and town boards.

County tax levies are made by the County Commissioners.

Irrigation district and drainage district assessments are made by the district boards.

Personal property tax becomes delinquent May 1, 1964, and if not paid by August 1 will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 1, 1964 and sold December 7, 1964.

Taxes for 1963 are due January 1, 1964. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid prior to March 1, and the second half prior to August 1. From March 1 to August 1 the first half bears interest at the rate of 1/2 per cent per month or fraction thereof. The total amount of taxes due may be paid on or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1 and bear interest at the rate of 2/3 per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your **SCHEDULE NUMBER** and **TAX DISTRICT NUMBER. DO NOT REFER TO YOUR STREET ADDRESS.**

HOW TO FIGURE YOUR OWN TAXES

If your property is in an incorporated town, multiply its valuation by the General, School District, Special District and Town Total Mill Levy, which is the last item opposite your town as shown in the table headed "Incorporated Towns".

If your property is not in an incorporated town, multiply its valuation by the appropriate "Total Combined Levies" according to your School District, Rural Fire District and Sanitation District. Obtain this total mill levy from the tables headed the "Combination of Tax Levies Applicable by School Districts" and "Total Combined Levies".

GENERAL INFORMATION

The Assessor's Office has nothing to do with the making of the several levies when they are within the limits provided by law but has jurisdiction relative to the valuation of real and personal property of the county, except railroads, telegraph companies and other public utility corporations. This office figures and extends the tax and completes the rolls. When finished and balanced these are delivered to the County Treasurer for collection.

State Tax Levies are made by state officials.

The amount of the school district budgets is determined by the school boards and voters of school districts.

City and town tax levies are made by city and town boards.

County tax levies are made by the County Commissioners.

Irrigation district and drainage district assessments are made by the district boards.

Personal property tax becomes delinquent May 1, 1965, and if not paid by August 1 will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 1, 1965 and sold December 6, 1965.

Taxes for 1964 are due January 1, 1965. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid prior to March 1, and the second half prior to August 1. From March 1 to August 1 the first half bears interest at the rate of 1/2 per cent per month or fraction thereof. The total amount of taxes due may be paid or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1 and bear interest at the rate of 2/3 per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your **SCHEDULE NUMBER** and **TAX DISTRICT NUMBER. DO NOT REFER TO YOUR STREET ADDRESS.**

High a-top a hill southwest of the city and overlooking both the Platte and Poudre valleys is located the immense and beautiful new Greeley Elks lodge. Located on 134 acres of land, in addition to the main building of 33,000 square feet, are wading and swimming pools immediately to the west, beyond those a 9-hole 3-par golf course, to the north a refrigerated skating rink, and two hard-surfaced parking lots that will handle 350 cars. The \$1¼ million family participation lodge complex is rated as the third most extensive Elks installation in the nation.

HOW TO FIGURE YOUR OWN TAXES

If your property is in an incorporated town, multiply its valuation by the General, School District, Special District and Town Total Mill Levy, which is the last item opposite your town as shown in the table headed "Incorporated Towns".

If your property is not in an incorporated town, multiply its valuation by the appropriate "Total Combined Levies" according to your School District, Rural Fire District and Sanitation District. Obtain this total mill levy from the tables headed the "Combination of Tax Levies Applicable by School Districts" and "Total Combined Levies".

GENERAL INFORMATION

The Assessor's Office has nothing to do with the making of the several levies when they are within the limits provided by law but has jurisdiction relative to the valuation of real and personal property of the county, except railroads, telegraph companies and other public utility corporations. This office figures and extends the tax and completes the rolls. When finished and balanced these are delivered to the County Treasurer for collection.

State Tax Levies are made by state officials.

The amount of the school district budgets is determined by the school boards and voters of school districts.

City and town tax levies are made by city and town boards.

County tax levies are made by the County Commissioners.

Irrigation district and drainage district assessments are made by the district boards.

Personal property tax becomes delinquent May 1, 1966, and if not paid by August 1 will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 1, 1966 and sold December 6, 1966.

Taxes for 1965 are due January 1, 1966. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid prior to March 1, and the second half prior to August 1. From March 1 to August 1 the first half bears interest at the rate of 1/2 per cent per month or fraction thereof. The total amount of taxes due may be paid on or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1 and bear interest at the rate of 2/3 per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your **SCHEDULE NUMBER** and **TAX DISTRICT NUMBER. DO NOT REFER TO YOUR STREET ADDRESS.**

HOW TO FIGURE YOUR OWN TAXES

If your property is in an incorporated town, multiply its valuation by the General, School District, Special District and Town Total Mill Levy, which is the last item opposite your town as shown in the table headed "Incorporated Towns".

If your property is not in an incorporated town, multiply its valuation by the appropriate "Total Combined Levies" according to your School District, Rural Fire District and Sanitation District. Obtain this total mill levy from the tables headed the "Combination of Tax Levies Applicable by School Districts" and "Total Combined Levies".

GENERAL INFORMATION

The Assessor's Office has nothing to do with the making of the several levies when they are within the limits provided by law but has jurisdiction relative to the valuation of real and personal property of the county, except railroads, telegraph companies and other public utility corporations. This office figures and extends the tax and completes the rolls. When finished and balanced these are delivered to the County Treasurer for collection.

State Tax Levies are made by state officials.

The amount of the school district budgets is determined by the school boards and voters of school districts.

City and town tax levies are made by city and town boards.

County tax levies are made by the County Commissioners.

Irrigation district and drainage district assessments are made by the district boards.

Personal property tax becomes delinquent May 1, 1967, and if not paid by August 1 will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 1, 1967 and sold December 4, 1967.

Taxes for 1966 are due January 1, 1967. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid prior to March 1, and the second half prior to August 1. From March 1 to August 1 the first half bears interest at the rate of 1/2 per cent per month or fraction thereof. The total amount of taxes due may be paid on or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1, and bear interest at the rate of 2/3 per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your **SCHEDULE NUMBER** and **TAX DISTRICT NUMBER. DO NOT REFER TO YOUR STREET ADDRESS.**

The Weld County Services Building at 922 9th Street is located adjacent to the Weld County Jail and Weld County Court House. This arrangement concentrates all County offices in a single block area with ample parking situated in the same block.

This building was purchased from B.P.O.E. - Lodge 809 in 1964 and remodeled to accommodate the expansion of County services. The first floor is occupied by part of the County Clerk and Records services, the second floor accommodates County Supt. of Schools, County Agent and Extension office, County Welfare office, County Planning Commission and Buildings Custodian office. The third floor houses the County Treasurers office and the County Assessors office.

GENERAL INFORMATION

This abstract is compiled and sent out with the compliments of the County Assessor's Office for your information and convenience, as so many inquiries are received at this office as to how levies are made.

THE ASSESSOR HAS ABSOLUTELY NOTHING TO DO WITH MAKING ANY TAX LEVY.

County Tax is levied by the Board of County Commissioners.

City and Town Tax is levied by City and Town Officials.

Special School Tax is levied by School Boards.

Special Districts Tax is levied by their Boards of Directors.

Personal property tax becomes delinquent May 1, 1968, and if not paid by August 1, will be advertised in September. Real Estate will be advertised for sale for delinquent taxes on or about October 1, 1968 and sold the first Monday in December.

Taxes for 1967 are due January 1, 1968. Taxes may be paid in two equal payments. To avoid penalties the first half must be paid by February 29, and the second half by July 31. From March 1 to August 1 the first half bears interest at the rate of $\frac{1}{2}$ per cent per month or fraction thereof. The total amount of taxes due may be paid on or before April 30 without penalty or interest.

All unpaid real estate taxes become delinquent August 1, and bear interest at the rate of $\frac{3}{4}$ per cent per month or fraction thereof until date of tax sale.

In correspondence with either this office or the Treasurer's Office please refer to your SCHEDULE NUMBER AND TAX DISTRICT NUMBER. **DO NOT REFER TO YOUR STREET ADDRESS.**
