

GENERAL INFORMATION

This document presents tax areas in Weld County, arranged numerically. On the pages which follow under the heading, tax area, the numbers begin at 0100 and continue to 9724. There are 2,210 numbers and, therefore, 2,210 tax areas.

Each tax area represents a unique combination of tax districts in Weld County. All real estate properties in one tax area are in the same overlapping tax districts. While each tax district sets its own mill levy, the sum of the individual district levies within the tax area is used to calculate the property tax paid for property within the tax area. Each tax area consists of different combinations of tax districts. Therefore, the mill levies for most, if not all areas, differ. For example tax areas 0100 and 0101 on page 1 differ only in the fire district within the areas. Since the two fire districts have different levies, the two tax areas have different levies. There are 271 tax districts within Weld County. These overlap in a way that creates over 2,210 tax areas.

The mill levy for each tax area represents the number of dollars of property taxes levied for each one-thousand dollars of assessed value. For example, in tax area 0600 (p29) with a mill levy of 75.561 mills, a residential property owner pays approximately \$75.56 for every \$1,000 in assessed value he/she has. An assessed value of \$7,380 (actual value \$92,713, rounded) would result in property taxes of approximately \$557.64 ($7,380 \times .075561$, rounded). The breakdowns in each tax area show the tax districts and the levies within the area. The total levy for the districts within an area equals the levy which is multiplied by assessed value to determine property taxes.

A list of the tax districts follows this page. A complete list of the districts and the tax areas in which each is located is available in the Assessors office. It lists the tax districts alphabetically. For copies call (970) 353-3845 ext.3650.
