Prerequisites

- IS0100, Introduction to the Incident Command System;
- IS0200, Basic Incident Command System for Initial Response;
- ICS 300 (E/L/G0300), Intermediate Incident Command System for Expanding Incidents;
- IS0700, National Incident Management System, An Introduction;
- IS0800, National Response Framework, An Introduction

Recommended: Experience using concepts and principles from ICS 100, ICS 200, and ICS 300 and use of skills in an operational environment.

Recommended

Proficiency in applying concepts and principles gleaned from IS100, IS200, IS700, and IS800, coupled with practical utilization of acquired skills during response scenarios or exercises.

Instructions/Important Information for Students

We strive to ensure inclusive, accessible meetings and courses that enable all individuals to engage fully. To request accommodations or for inquiries about accessibility, please contact the local course manager at least 14 days prior to attending.

Lodging

For course-related lodging assistance, please submit a [lodging request](#) form. Note that assistance is subject to grant guidelines and cannot be guaranteed for all cases. Lodging support is not available for courses under 8 hours in duration. To be considered, lodging requests must be submitted no later than 30 days before the course start date listed above.

ArcGIS Course Dashboard

The [CO DHSEM Training Dashboard](#) is a collection of courses offered across Colorado. We encourage any agency to list their course with us by submitting a [course request form](#).

Not all courses necessitate state coordination, and individuals have the option to decline state assistance by selecting the relevant checkbox in the course request form.

Assistance

If you have questions about this course or other training-related topics including obtaining a certificate for a course you previously attended, please email us at: cdps_dhsem_training@state.co.us

About CO.Train

COLORADO

Division of Homeland Security
& Emergency Management

Department of Public Safety

CO.Train offers diverse online emergency management training courses and resources for both the public and industry professionals. Covering topics like NIMS training, flood response, evacuation planning, and hazardous materials management, its goal is to bolster emergency management capabilities across government, community organizations, and private sectors in Colorado. Users can access self-paced online courses, test their knowledge, and obtain certifications, ensuring training consistency statewide. Certain courses may be mandatory for emergency managers, first responders, and government officials, tailored to their specific roles. Ultimately, CO.Train plays a vital role in enhancing Colorado's readiness and response to disasters and emergencies.

Sign up for a CO.Train Account

Log onto www.train.org Click on "Create an Account," which appears underneath the login on the left-hand side of the screen. Fill out the form and review and accept the TRAIN Policies. Depending on your selected affiliate(s), you may have additional information to fill out. When you have finished, click "Create Account."

Need a certificate or access to your Training Record?

Many certificates are located in your [CO.Train](#) account under the "YOUR LEARNING" tab and just below the "Your Certificates" tab.
