Neither the County of Weld, nor any of its agents or employees undertake or assume any liability to the owner of the above property, to any purchaser of the above property or to any lending agency making a loan on the above property in connection with either its examination of the property or in the report.

This inspection was conducted solely for the purpose of detecting health hazards observable at the time of inspection, and does not constitute a warranty that the system is without flaw or that it will continue to function in the future. Inspections requested during periods of snow cover and high soil saturation may be of questionable value to potential buyers due to adverse conditions. Water sample reports reflect the bacteriological quality of the water supply at the time the sample was taken. Evaluations based on Statements of Existing (S.O.E.) relies on information the property owner provides, under oath, indicating current status of the system and representing to the best of his/her knowledge the system is not failing to function properly.
