

Use by Special Review (USR) Procedural Guide

Department of Planning Services
1402 N. 17TH Avenue, P.O. Box 758, Greeley, CO 80632
(970) 400-6100 | www.weld.gov

Note: A Pre-Application Request Form must be submitted to the Department of Planning Services prior to the submittal of a USR application.

Note: 1041 land uses require a separate application.

Submit all the application components as separate documents, in PDF format, in the order outlined in the checklist below.

Planning Requirements Checklist

- _____ Application Form. (See attached).
- _____ Authorization Form, if applicable. (See attached).
- _____ Deed identifying the surface estate ownership interest in the property and relevant Lease documents.
- _____ Articles of Organization or Incorporation documents if the owner is a business entity. Include Statement/Delegation of Authority documentation.
- _____ Trustee documents if the owner is a Trust.
- _____ A Certificate of Conveyances (COC) prepared by a Title Company. Once signed, the COC expires within 30 days.
- _____ A signed Statement of Taxes from the County Treasurer showing no delinquent property taxes for subject property. The Statement shall be from the current tax year.
- _____ Completed Planning Questionnaire. (See attached).
- _____ Draft USR map. (See attached for map requirements.)
- _____ Lighting Plan following the standards set forth in Section 23-2-250.D, if applicable.
- _____ Landscape and Screening Plan detailing the existing and proposed landscaping, property maintenance, installation schedule, irrigation method, security and/or privacy fencing, trash enclosure, portable toilet screening, etc. if applicable.
- _____ Soil Report of the site prepared by the Natural Resource Conservation Service or a soils engineer.
- _____ Communication or Decommissioning Plan, if applicable.
- _____ Emergency Contact Form. (See attached).
- _____ Notice of Inquiry (NOI) Form from a municipality or municipalities if the site is located within an Intergovernmental Agreement (IGA) boundary or a Coordinated Planning Agreement (CPA) boundary, if applicable.
- _____ Buffer Report, signed, of the names, addresses and parcel numbers of the surrounding property owners within 500 feet of the property. Once signed, the buffer report expires within 30 days.
- _____ Community meeting sign-in sheet, minutes, and summary (optional).
- _____ The names and addresses of any owner, operator of any oil and gas facilities, irrigation ditches/laterals, pipelines, overhead lines, railroad, etc. on the property, if applicable.
- _____ A copy of any Surface Use Agreement with mineral owners associated with the subject property, stipulating that the oil and gas activities on the subject property have been adequately incorporated into the design of the site in accordance with Section 23-2-260.B.13.
- _____ Water Supply Documentation. Example: A letter or bill from a water district or municipality, or a well permit or permit application from the State Division of Water Resources. Provide a statement if upgrading the water source from agricultural or residential usage to commercial or industrial.
- _____ Sewage Disposal Documentation. Example: An On-site wastewater treatment system permit or application or bill from a sanitary sewer district.

- _____ Noise Study including a noise abatement plan documenting the methods to be utilized to meet the applicable noise standard.
- _____ Waste Handling Plan.
- _____ Dust Abatement Plan.
- _____ Engineering, Design and Operations Plan.
- _____ Nuisance Abatement Plan (pest, manure, etc.).
- _____ Application fee. A 50% investigation fee is required if this is application is in response to a violation.

Use by Special Review (USR) Procedural Guide

Development Review Checklist

- _____ Completed Public Works Questionnaire. (See attached).
- _____ A Preliminary Drainage Report or Drainage Narrative. (See attached drainage requirements).
- _____ A Traffic Impact Study (or Traffic Narrative). (See attached traffic requirements).
- _____ MS4 Requirements, if applicable. (A Preliminary drainage report providing water quality will be required for the completeness review if the project site falls within an MS4 area.)

Any other item(s) deemed necessary to process the Use by Special Review application may be requested by the Departments of Planning Services and Public Works.

Supplemental Requirements

Applications for the following USR types require additional submittal requirements as detailed in Chapter 23, Article IV of the Weld County Code, as amended.

- Mines
- Feedlots
- Kennels
- Solar Facilities
- Wind Generators
- Outdoor Shooting Ranges
- Telecommunication Towers
- Residential Therapeutic Center
- Solid or Hazardous Waste Disposal Facilities
- Organic Fertilizer Production and Composting Facilities

_____ Supplemental Requirement Submittal Packet, if applicable.

A Microsoft Word (.docx) version of the questionnaires is available by request.

Use by Special Review (USR) Procedural Guide

<u>USR Type</u>	<u>Fee*</u>
• Mining Permit	\$5,000.00 for the first ten acres plus \$20 per acre or fraction thereof in excess of 10 acres
• Solid Waste Disposal Site	\$20,000.00
• Hazardous Waste Disposal Site, excluding injection wells	\$100,000.00
• Non-1041 Major Facility of a Public Utility, other than sewage treatment facilities	\$3,000.00
• Sewage treatment facility	\$12,000.00
• Minor Amendment	\$600.00
• All other USR permits	\$3,000.00
• Recording fee (due upon recordation of the final USR map)	\$43.00

*A 2.8% service fee will be included with credit card payments.

Fees are non-refundable and due at time of application submittal. Fees are set by the Board of County Commissioners. County Staff is not authorized to negotiate fees and cannot, under any circumstance, waive, reduce or amend the fees set forth in the Weld County Planning Fee Schedule per Appendix 5-J of the Weld County Code

Do not attempt to contact Planning Commissioners or the County Commissioners about your project in order to refrain from ex parte communication, defined as any material oral or written communication relevant to the merits of the case that was neither on the record nor included the reasonable prior notice to all parties.

It is the applicant's responsibility to meet the application requirements outlined in Section 23-2-260 of the Weld County Code. No Use by Special Review application shall be assigned a case number to be reviewed until all required items on the Use by Special Review submittal checklist have been completed and submitted to the Department of Planning Services.

The Department of Planning Services is responsible for reviewing and processing the application in accordance with Section 23-2-210 of the Weld County Code. The Planner will post one or more notification signs on the property and will mail notice to owners of property within five-hundred (500) feet of the subject property.

The Planning Commission will consider the application in accordance with Section 23-2-220 of the Weld County Code and provide a recommendation to the Board of County Commissioners concerning the application. The Board of County Commissioners will consider the application in accordance with Section 23-2-230 of the Weld County Code. See the flowchart in this procedural guide for more detail.

The applicant shall attend all hearings scheduled for consideration of the application in order to present the proposal and answer any questions. The applicant is also encouraged to communicate with the Planner assigned to process and review the application once it has been submitted in order to keep up to date with any developments pertaining to the application.

It is also recommended that the applicant contact owners of property within at least five-hundred (500) feet of the subject property about the proposed use prior to applying.

Major Amendments to existing Use by Special Review Permits shall be processed using the standard USR application per Section 23-2-280.A of the Weld County Code.

Use by Special Review (USR) Code Requirements

The submittal requirements and review procedures are stated in Chapter 23, Article II, Division 4 of the County Code. The Weld County Code is available online at www.weld.gov (Useful Links > Weld County Code).

Review Criteria

Per Sections 23-2-220.A and 23-2-230.B of the Weld County Code, the applicant shall demonstrate:

1. That the proposal is consistent with in Chapter 22 (the Weld County Comprehensive Plan) and any other applicable code provisions or ordinances in effect.
2. That the proposal is consistent with the intent of the district in which the use is located.
3. That the uses which would be permitted will be compatible with the existing surrounding land uses.
4. That the uses which would be permitted will be compatible with the future development of the surrounding area as permitted by the existing zone and with future development as projected by Chapter 22 of this Code and any other applicable code provisions or ordinances in effect, or the adopted master plans of affected municipalities.
5. That the application complies with Articles V and XI of this Chapter if the proposal is located within an overlay zoning district or a special flood hazard area identified by maps officially adopted by the county.
6. That if the use is proposed to be located in the A (Agricultural) Zone District, the applicant has demonstrated a diligent effort has been made to conserve prime farmland in the locational decision for the proposed use.
7. That there is adequate provision for the protection of the health, safety and welfare of the inhabitants of the neighborhood and the county.

Design Standards

Per Section 23-2-240 of the Weld County Code.

- A. An applicant for a Use by Special Review shall demonstrate compliance with the following design standards in the application and shall continue to meet these standards if approved for development.
1. Adequate water service in terms of quality, quantity and dependability is available to the site to serve the uses permitted.
 2. Adequate sewer service is available to the site to serve the uses permitted.
 3. If soil conditions on the site are such that they present moderate or severe limitations to the construction of structures or facilities proposed for the site, the applicant has demonstrated how such limitations can and will be mitigated.
 4. Adequate fire protection measures are available on the site for the structures and facilities permitted.
 5. Uses shall comply with the stormwater drainage criteria requirements set forth in this Code.
 6. All parking and vehicle storage shall be provided on the site. Parking and loading areas shall be designed and constructed in accordance with Division 1 of Article IV of this Chapter.
 7. The use shall comply with all the Bulk Standards requirements of the zone district.
 8. The access shall be located and designed to be safe; ingress and egress shall not present a safety hazard to the traveling public or to the vehicle accessing the property. For uses generating high traffic volumes and large number of large, slow-accelerating vehicles, acceleration and deceleration lanes may be required to mitigate a potential traffic hazard.
 9. New accesses to public rights-of-way shall be constructed in accordance with this Code.
 10. Buffering or screening of the proposed use from adjacent properties may be required in order to make the determination that the proposed use is compatible with the surrounding uses. buffering or screening may be accomplished through a combination of berming, landscaping and fencing.
 11. Uses by Special Review in the A (Agricultural) Zone District shall be located on the least prime soils on the property in question unless the applicant can demonstrate why such a location would be impractical or infeasible.
 12. The placement of signs on the site shall comply with the requirements of Article IV, Division of this Chapter.
 13. Trash collection areas or facilities shall be screened from public rights-of-way and adjacent properties. These areas shall be designed and used in a manner that will prevent wind- or animal-scattered trash.

Use by Special Review (USR) Code Requirements

Operation Standards

Per Section 23-2-250 of the Weld County Code.

An applicant for a Special Review Permit shall demonstrate conformance with the following operation standards in the Special Review Permit application to the extent that the standards affect location, layout and design of the Use by Special Review prior to construction and operation. Once operational, the operation of the USES permitted shall conform to these standards.

- A. The operation of the uses shall comply with the noise standards enumerated in Section 25-12-101, et seq., C.R.S.
- B. The operation of the uses shall comply with the air quality regulations promulgated by the Colorado Air Quality Control Commission.
- C. The operation of the uses shall comply with the water quality regulations promulgated by the Colorado Water Quality Control Commission.
- D. The uses shall comply with the following lighting standards:
 - 1. Sources of light, including light from high-temperature processes such as combustion or welding, shall be shielded so that light rays will not shine directly onto adjacent properties where such would cause a nuisance or interfere with the use on the adjacent properties; and
 - 2. Neither direct nor reflected light from any light source may create a traffic hazard to operators of motor vehicles on public or private streets/roads and no colored lights may be used which may be confused with or construed as traffic control devices.
- E. The uses shall not emit heat so as to raise the temperature of the air more than five degrees (5°) Fahrenheit at or beyond the lot line.
- F. Property shall be maintained in such a manner that grasses and weeds are not permitted to grow taller than twelve (12) inches. In no event shall the property owner allow the growth of noxious weeds.
- G. Any off-site and on-site Improvements Agreement shall be made in conformance with the county policy on collateral for improvements.

Other Limitations

Per Section 23-2-200.G of the Weld County Code, applications for a USR shall be accepted only for proposed uses on legal lot(s). An application for a USR shall include the entire lot(s) upon which the USR will be located.

Per Section 23-2-270 of the Weld County Code, an applicant for a USR shall demonstrate conformance with and shall continue to meet any Development Standards approved and adopted by the county. The Development Standards shall be placed on the USR map prior to recording. Noncompliance with any of the approved development standards may be reason for revocation or suspension of the USR by the Board of County Commissioners.

Per Section 23-2-280.C of the Weld County Code, the conditions of approval shall be met and the map recorded within one hundred twenty (120) days from the date the resolution was signed. If the map has not been recorded within one hundred twenty (120) days from the date the resolution was signed, or if an applicant is unable to meet all of the conditions within one hundred twenty (120) days of approval, the applicant may request an extension from the Director of the Department of Planning Services. The Director may grant a one-time extension of up to one hundred twenty (120) days, for good cause shown, upon a written request by the applicant. Before this extension has expired, the applicant may seek a further extension from the Board of County Commissioners by written request to the Director of Planning. If the Board of County Commissioners denies the extension or if the conditions are not met and the map recorded by the date specified by the Board, the approval shall be voided, and the application denied.

Per Section 23-2-290.A of the Weld County Code, construction or use pursuant to approval of a USR shall be commenced within three (3) year from the date that the USR map is recorded, unless otherwise specified by the Board of County Commissioners when issuing the original Permit, or the Permit shall be vacated. The Director of Planning Services may grant an extension of time, for good cause shown, upon a written request by the landowner using the Extension Request Form.

Per Section 23-2-290.B of the Weld County Code, a USR shall terminate when the use is discontinued for a period of three (3) consecutive years, the use of the land changes or the time period established by the Board of County Commissioners through the approval process expires. The landowner may notify the Department of Planning Services of a termination of the use, or Planning Services staff may observe that the use has been terminated. When either the Department of Planning Services is notified by the landowner, or when the Department of Planning Services observes that the use may have been terminated, the Planner shall send certified written notice to the landowner asking that the landowner request to vacate the USR.

Use by Special Review (USR) Planning Questionnaire

Answer the following questions per Section 23-2-260. A, B, C & E of the Weld County Code. Please type on a separate sheet. If a question does not pertain to your proposal, please respond with an explanation – do not leave questions blank.

1. Explain the proposed use and business name.
2. Explain the need for the proposed use.
3. Describe the current and previous use of the land.
4. Describe the proximity of the proposed use to residences.
5. Describe the surrounding land uses of the site and how the proposed use is compatible with them.
6. Describe the hours and days of operation (i.e. Monday thru Friday 8:00 a.m. to 5:00 p.m.).
7. Describe the number of employees including full-time, part-time and contractors. If shift work is proposed, detail number of employees, schedule and duration of shifts.
8. Describe the maximum number of users, patrons, members, buyers or other visitors that the site will accommodate at any one time.
9. List the types and maximum numbers of animals to be on the site at any one time (for dairies, livestock confinement operations, kennels, etc.).
10. List the types and number of operating and processing equipment.
11. List the types, number and uses of the existing and proposed structures.
12. Describe the size of any stockpile, storage or waste areas.
13. Describe the method and time schedule of removal or disposal of debris, junk and other wastes associated with the proposed use.
14. Include a timetable showing the periods of time required for the construction of the operation.
15. Describe the proposed and existing lot surface type and the square footage of each type (i.e. asphalt, gravel, landscaping, dirt, grass, buildings).
16. How many parking spaces are proposed? How many handicap-accessible parking spaces are proposed?
17. Describe the existing and proposed fencing and screening for the site including all parking and outdoor storage areas.
18. Describe the existing and proposed landscaping for the site.
19. Describe reclamation procedures to be employed as stages of the operation are phased out or upon cessation of the Use by Special Review activity.
20. Describe the proposed fire protection measures.
21. Explain how this proposal is consistent with the Weld County Comprehensive Plan per Chapter 22 of the Weld County Code.
22. Explain how this proposal is consistent with the intent of the zone district in which it is located. (Intent statements can be found at the beginning of each zone district section in Article III of Chapter 23 of the Weld County Code.)
23. Explain how this proposal will be compatible with future development of the surrounding area or adopted master plans of affected municipalities.
24. Explain how this proposal impacts the protection of the health, safety and welfare of the inhabitants of the neighborhood and the County.
25. Describe any irrigation features. If the proposed use is to be located in the A (Agricultural) Zone District, explain your efforts to conserve prime agricultural land in the locational decision for the proposed use.
26. Explain how this proposal complies with Article V and Article XI of Chapter 23 if the proposal is located within any Overlay Zoning District (Airport, Geologic Hazard, or Historic Townsites Overlay Districts) or a Special Flood Hazard Area identified by maps officially adopted by the County.
27. Detail known State or Federal permits required for your proposed use(s) and the status of each permit. Provide a copy of any application or permit.

28. Discuss the existing and proposed potable water source. If utilizing a drinking water well, include either the well permit or well permit application that was submitted to the State Division of Water Resources. If utilizing a public water tap, include a letter from the Water District, a tap or meter number, or a copy of the water bill.
29. Discuss the existing and proposed sewage disposal system. What type of sewage disposal system is on the property? If utilizing an existing on-site wastewater treatment system, provide the on-site wastewater treatment permit number. (If there is no on-site wastewater treatment permit due to the age of the existing on-site wastewater treatment system, apply for an on-site wastewater treatment permit through the Department of Public Health and Environment prior to submitting this application.) If a new on-site wastewater treatment system will be installed, please state "a new on-site wastewater treatment system is proposed." (Only propose portable toilets if the use is consistent with the Department of Public Health and Environment's portable toilet policy.)
30. If storage or warehousing is proposed, what type of items will be stored?
31. Describe where and how storage and/or stockpile of wastes, chemicals, and/or petroleum will occur on this site.
32. If there will be fuel storage on site, indicate the gallons and the secondary containment. State the number of tanks and gallons per tank.
33. If there will be washing of vehicles or equipment on site, indicate how the wash water will be contained.
34. If there will be floor drains, indicate how the fluids will be contained.
35. Indicate if there will be any air emissions (e.g. painting, oil storage, etc.).
36. Provide a design and operations plan if applicable (e.g. composting, landfills, etc.).
37. Provide a nuisance management plan if applicable (e.g. dairies, feedlots, etc.).
38. Additional information may be requested depending on type of land use requested.

Use by Special Review (USR) Map Requirements

Submit the draft USR map in PDF format per the map requirements in Section 23-2-260.D of the Weld County Code. Upon USR approval, a 24" x 36" Mylar map will be required along with the recording fee.

_____ Vicinity Map. 1" = 2,000' or another suitable scale if approved by Planning Services.

Delineate all of the following within ½ mile of the subject parcel:

_____ Section, township and range.

_____ Scale and north arrow.

_____ Outline of the perimeter of the subject parcel.

_____ The general classifications and distribution of soils over the parcel under consideration. Soil classification names and agricultural capability classifications shall be noted in the legend.

_____ Locations and names of all streets/roads, irrigation ditches, and water features.

_____ Existing residences, existing and proposed accesses to the subject property, any abutting subdivision outlines and names, and the boundaries of any adjacent municipality.

_____ Any other relevant information.

_____ Plot Plan. 1" = 100' or another suitable scale if approved by Planning Services.

Delineate all of the following within 200 feet of the subject parcel as well as within the parcel itself.

_____ Outline of the perimeter of the subject parcel.

_____ All public rights-of-way of record (including names and document creating the right-of-way).

_____ All existing and proposed structures and other improvements.

_____ All easements and rights-of-way.

_____ Irrigation ditches.

_____ Adjacent property lines.

_____ All hydrographic features including year-round and ephemeral streams, rivers, lakes, ponds and reservoirs.

_____ Location of areas of moderate or severe soil limitations as defined by the Natural Resources Conservation Service or by a soil survey and study prepared by a soils engineer or scientist for the uses and associated structures proposed for the parcel.

_____ Location and design of stormwater management devices or structures per the approved Drainage Narrative or Report.

_____ Complete traffic circulation and parking plan showing locations and sizes.

_____ Location, amount, size and type of any proposed landscape material, including fencing, walls, berms or other screening.

_____ Location of any special flood hazard area, geologic hazard area, airport-overlay or mineral resource areas, if applicable.

_____ Show and label the location of the lighting. Include a dimensioned elevation drawing of any light pole and the cutsheet of any light fixture including the shield design.

_____ Additional maps may be required to reflect drainage and/or landscaping conditions.

_____ Development standards per the Final Resolution.

_____ Certification blocks. (See next page).

Use by Special Review (USR)

Property Owner's Certification

The undersigned property owner(s) do(es) hereby agree to the Site Specific Development Plan and Use by Special Review Development Standards as described hereon this ____ day of _____, 20____.

Name of Property Owner

Name of Property Owner

Board of County Commissioners Certification

This is to certify that the Board of County Commissioners, Weld County, Colorado, does hereby confirm and adopt this Site Specific Development Plan and Use by Special Review and the Development Standards as shown and described hereon this ____ day of _____, 20 ____.

Chair, Board of County Commissioners

ATTEST:

Weld County Clerk to the Board

BY: _____
Deputy Clerk to the Board

Dated: _____

**Use by Special Review (USR)
Building Department Questionnaire**

1. List the type, size (square footage), and number of existing and proposed structures. Show and label all existing and proposed structures on the USR drawing. Label the use of the building and the square footage.
2. Explain how the existing structure will be used for this USR.
3. List the proposed uses(s) of each structure.

Use by Special Review (USR) Development Review Questionnaire

Answer the following questions per Section 8-11-40, Appendix 8-Q, and Section 8-14-10 of the Weld County Code. Please type on a separate sheet. If a question does not pertain to your proposal, please respond with an explanation – do not leave questions blank.

1. Describe the access location and applicable use types (i.e., agricultural, residential, commercial/industrial, and/or oil and gas) of all existing and proposed accesses to the parcel. Include the approximate distance each access is (or will be if proposed) from an intersecting county road. State that no existing access is present or that no new access is proposed, if applicable.
2. Describe any anticipated change(s) to an existing access, if applicable.
3. Describe in detail any existing or proposed access gate including its location.
4. Describe the location of all existing accesses on adjacent parcels and on parcels located on the opposite side of the road. Include the approximate distance each access is from an intersecting county road.
5. Describe any difficulties seeing oncoming traffic from an existing access and any anticipated difficulties seeing oncoming traffic from a proposed access.
6. Describe any horizontal curve (using terms like mild curve, sharp curve, reverse curve, etc.) in the vicinity of an existing or proposed access.
7. Describe the topography (using terms like flat, slight hills, steep hills, etc.) of the road in the vicinity of an existing or proposed access.

MS4 Requirements: Lyndsay Holbrook lhobrook@weld.gov (970) 400-3788

Development Review (Engineering):

Mike McRoberts mmcroberts@weld.gov (970) 400-3798

Dan Campbell dcampbell2@weld.gov (970) 400-3808

Aaron Maurice amaurice@weld.gov (970) 400-3588

Use by Special Review (USR) Drainage Requirements

Drainage Requirements

A preliminary drainage report and detention pond design shall be submitted with your application materials. To have a complete application, the preliminary drainage report shall include detailed information for all highlighted items on the attached Drainage Report Checklist. (It is possible that your project qualifies for an exception to stormwater detention per Weld County Code, Section 8-11-40.I. If determined as such, a drainage narrative as described in the aforementioned Code shall be provided. All eight narrative items must be addressed for a complete application.)

If using the Rational Method to calculate your site's historic and developed stormwater runoff, coefficients and spreadsheets located on the Weld County website shall be used. Links for downloads are provided below. Please note that Urban Drainage Full Spectrum Detention is **not** allowed.

Urban Drainage Rational Section:

https://www.weld.gov/files/sharedassets/public/departments/public-works/documents/urban-drainage_rational-section-2007.pdf

Rational Method Coefficients, C:

<https://www.weld.gov/files/sharedassets/public/departments/public-works/documents/pages-from-050-chapter-05-runoff-2008-04-rev.pdf>

Peak Runoff Prediction Workbook – Rational Method:

<https://www.weld.gov/files/sharedassets/public/departments/public-works/documents/ud-rational-v1.02a.xls>

Urban Drainage Storage (Modified FAA Method for Pond Sizing):

https://www.weld.gov/files/sharedassets/public/departments/public-works/documents/urban-drainage_storage-2011.pdf

Detention Pond Basin Volume Estimating Spreadsheet for Modified FAA Method:

https://www.weld.gov/files/sharedassets/public/departments/public-works/documents/ud-detention_v2.35.xls

Tips for Preparing a Successful Preliminary Drainage Report:

- The County requires detention as the default for ponds. Retention ponds are allowed only when the site topography does not allow for outfall location. Per Weld County Code, Section 8-11-40.C., a variance will need to be requested to the County Engineer for a retention pond design. The variance process requires additional time for review.
- Urban Drainage Full Spectrum Detention is NOT allowed.
- The County requires detention ponds be sized using the historic runoff value (5-year runoff for urbanizing; 10-year runoff non-urbanizing) as the pond release rate during the 100-year, 1-hour storm event. The County classifies a site as “Urbanizing” if it falls within ¼ mile of a municipal boundary.
- When calculating the weighted C value for the proposed site, please model the pond water surface area using a 100% impervious value.
- All historic basins should be modeled using 2% imperviousness.
- The Regional Tc ((total length/180)+10) should not be used in calculation of historic runoff.
- The WQCV can be included within the detention volume.
- Contact Weld County Development Review if you have questions.

Drainage Report Checklist

Project Name:

The purpose of this checklist is to assist the applicant's Engineer with developing a drainage report that supports the intent of the Weld County Code using commonly accepted engineering practices and methodologies.

Is the project in the **MS4**? Yes No If yes, the following requirements [in blue](#) apply. See Chapter 8, Article IX of the Weld County Code.

Report Content

- Weld County Case Number
- Certificate of Compliance signed and stamped by a Colorado Licensed PE
- Description/Scope of Work
- Location (County Roads, S-T-R)
- Nearby water features and ownership
- Total acres vs. developed acres
- Hydrological soil types/maps
- FEMA Flood Zones
- Urbanizing or non-urbanizing
- Methodologies used for report & analysis (full spectrum is not accepted)
- [Base Design Standard used for permanent control measure design in the MS4](#)
- Discussion of offsite drainage routing
- Conclusion statement indicating that the design will adequately protect public health, safety, and general welfare and have no adverse impacts on public rights-of-way or offsite properties

Hydrology and Hydraulic Analysis

- Design Storm / Rainfall Information (NOAA Atlas or Local Data)
- Release Rate calculations
- Post construction site imperviousness
- Hydrologic calculations (historic & developed basins)
- Hydraulic calculations for proposed drainage improvements (swales, culverts, riprap, pond, outlet, spillway, WQCV outlet, etc.)
- Detention/WQCV calculations

Comments:

Construction Drawings

- Stamped by PE
- Engineering scale & north arrow
- Property lines, rights-of-way, and easements
- 1' Contours & elevations (existing & proposed)
- Pre- and post-development drainage basins
- Arrows depicting flow direction
- Time of concentration critical path
- Drainage design points
- Improvements labeled
- Permanent control measure and associated drainage features labeled 'No Build/No Storage', include design volume
- Cross sections for open channels, profiles for pipes
- Elevations for inverts, flow lines, top of grates, orifice(s), etc.
- Pipe specs (size, material, length, slope)
- Outlet and spillway details

Maintenance Plan

- Frequency of onsite inspections
- Repairs, if needed
- Cleaning of sediment and debris
- Vegetation maintenance
- Manufacturer maintenance specifications, if applicable

Other Required Documents (If Applicable)

- Variance Request and documentation– explain hardship, applicable code section, and proposed mitigation. [Variances will not be granted for the Base Design Standard requirement in the MS4.](#)

Use by Special Review (USR) Public Works Traffic Requirements

Traffic Information

Public Works Completeness Review Traffic Impact Analysis

Purpose and Overview

A Traffic Impact Study (TIS) is required to analyze the effects of a proposed development or other land use action on the transportation system in order to determine if adequate public facilities exist to serve the proposed development, and to clearly identify any improvements required to mitigate the impacts on the transportation system.

Traffic Impact Study Area

Traffic impacts shall be analyzed within the traffic impact area. The determination of a traffic impact area is done on a case-by-case basis; however, at a minimum the limits of the study should include:

1. Internal roads.
2. Adjacent roads.
3. Access locations and/or new intersections.
4. Off-site roads to the nearest paved County collector or arterial road or state highway.
5. Off-site roads where traffic from the proposed development or land use action will account for at least 20% of the average daily traffic upon build-out.
6. Off-site intersections where traffic from the proposed development or land use action:
 - a. Contributes a 10% impact of the peak hour traffic on any approach leg of an intersection where the intersection is operating at a level of service (LOS) C or better upon build-out.
 - b. Contributes a 5% impact of the peak hour traffic on any approach leg of an intersection where the intersection is operating at a LOS D or worse upon build-out.
 - c. Impacts a specific turning movement that currently does not have an auxiliary turn lane by at least 50% of the peak hour volume warrant for an auxiliary turn.

Preliminary Traffic Impact Analysis – To be submitted with every Application

A preliminary traffic impact analysis shall be submitted with the project application for the application to be considered complete. The intent of the analysis is to determine the project's cumulative development impacts, appropriate project mitigation and improvements necessary to offset a specific project's impacts. This analysis shall include the following information:

Traffic Narrative:

1. Describe how many roundtrips/day are expected for each vehicle type: Passenger Cars/Pickups, Tandem Trucks, Semi-Truck/Trailer/RV (Roundtrip = One (1) trip in and One (1) trip out of site).
2. Describe the expected travel routes or haul routes for site traffic.
3. Describe the travel distribution along the routes (e.g. 50% of traffic will come from the north, 20% from the south, 30% from the east, etc.).
4. Describe the time of day that you expect the highest traffic volumes.

Public Works will review the Traffic Narrative and advise the applicant if more information or an engineered traffic impact study is required.

Use by Special Review (USR)
Public Works Traffic/General Requirements, continued

Traffic Impact Study (TIS):

A full TIS is required for any proposed development or land use zoned Commercial or Industrial, any residential subdivision greater than nine (9) lots, or when determined necessary by the Engineer. The TIS should address impacts to on-site and off-site roadways and highways within the County and shall be prepared, stamped, and signed by a professional engineer licensed in the State of Colorado. The TIS shall include, at a minimum, the following information:

1. Describe the traffic impact area, including at a minimum those elements described in the traffic impact study area section of this document.
2. A location map showing the development site, the boundaries of the traffic impact area, and all roads, intersections, bridges or other roadway structures in the traffic impact area.
3. Define the following study horizons for the Full Traffic Impact Study: the existing (current), short range, and long-range horizons.
 - a. Existing Horizon: The intent is to establish a baseline traffic condition.
 - b. Short Range Horizon: The intent is to evaluate the immediate impacts of the project on the transportation system. The short-term horizon year is defined as the point of full buildout of the proposed development or land use action. If the project is proposed to occur over multiple phases, the impacts shall be analyzed at the point of full buildout of each phase. In no case shall the short-range horizon exceed five (5) years.
 - c. Long Range Horizon: The intent is to evaluate the impacts of the fully developed project in the context of regional transportation planning efforts. The long-term impacts are analyzed as of the end of the current Regional Transportation Plan 20-year planning horizon.
4. Identify the existing, approved, and proposed land uses within the traffic impact area.
5. Describe existing traffic conditions within the traffic impact area, including average daily traffic volumes for roadways and a.m. and p.m. peak hour levels of service for intersections.
6. For short-range traffic projections, provide references, calculations and data sources for all trip generation estimates. The trip generation results shall be shown in a table with the following information:
 - a. Land Use.
 - b. Unit of Measurement (for example, per dwelling unit, per 1000 s.f., etc.).
 - c. Total number of units.
 - d. Trip generation rates per unit for average daily traffic and peak hour volumes.
 - e. Total number of trips generated for average daily traffic and a.m. and p.m. peak hours.
7. Short-range and long-range traffic projections must also include forecasts for the growth in background traffic.
8. Provide trip distribution estimates for the roads and intersections in the traffic impact area.
9. Present the volumes for short-range and long-range traffic including the projected traffic for the proposed development or land use action for the a.m. and p.m. peak hour and average daily conditions. These volumes must include turn movements at intersection as well as volumes for roads in the traffic impact area.
10. Analyze the adequacy of the transportation system to handle the projected traffic for short- range and long-range planning years. Key elements in this analysis should include:
 - a. Generalized daily traffic volume level of service for roadways.
 - b. Intersection levels of service for a.m. and p.m. peak hours.
 - c. The appropriateness of access locations and if necessary, a traffic signal warrant analysis.
 - d. The need for auxiliary lanes (turn lanes, deceleration and acceleration lanes), including explanations of how acceleration/deceleration lengths, storage lengths, and taper lengths were determined.
 - e. Sight distances.

Use by Special Review (USR)
Public Works Traffic/General Requirements, continued

11. Provide a summary of conclusions and recommendations from the Full Traffic Impact Study, including at least the following items:
 - a. A summary listing of traffic impacts from the proposed development on existing and proposed roads and intersections within the traffic impact area.
 - b. A summary listing of the improvements needed to assure adequate service and safety levels on the roadway system affected by the proposed development. Identify and describe each proposed improvement, how and when it will be funded, and expected completion dates.
12. Any reasonable additional information deemed necessary for review – special considerations.

Public Works will review the TIS and advise the applicant if more information is needed or provide technical comments on the submittal.

Access Information

Tips for Selecting Your Access on a Weld County Road (not required for a complete application)

- An Access Permit is required for access onto Weld County maintained roadways. (Weld County Code, Section 8-14-40)
- The location of an access can negatively impact public safety and traffic movement efficiency.
- Access locations shall comply with the spacing criteria for the road’s functional classification. Accesses on both sides of the road should be considered when determining access spacing. (Weld County Code, Section 8-14-30.1)
- Information about the Weld County Functional Classification Map can be found here: <https://www.weld.gov/Government/Departments/Public-Works/Transportation-Planning/2045-Transportation-Plan>
- Accesses should not be located within a horizontal curve if possible.
- Accesses should not be located where it is difficult to see oncoming traffic.
- Select County roads have “Access Control Plans” that have special requirements that you should be aware of. Please check to see if your project’s access location is impacted by an Access Control Plan here: <https://www.weld.gov/Government/Departments/Public-Works/Transportation-Planning/Access-Control-Plans>
- We strongly encourage you to discuss your access with Public Works prior to laying out your site plan to ensure the approved accesses are compatible with your layout.

MS4 Information (*This section applies if the site is in an MS4 area.*)

Some Weld County parcels are located in Municipal Separate Storm Sewer System (MS4) areas that have special requirements. To learn more about MS4 and to find out if your parcel is in the MS4 go here:

<https://www.weld.gov/Government/Departments/Public-Works/Stormwater>

If the site is located within a Weld County Municipal Separate Storm Sewer System (MS4) area special requirements apply as specified in Chapter 8, Article IX, of the Weld County Code. A preliminary drainage report with water quality is required for application to be considered complete.

Important Information to Know *(not required for a complete application)*

- Right-of-way Use Permit. Per Weld County Code, Section 8-13-30.B, a Weld County Right-of-way Use Permit is required for any project that will be occupying, constructing or excavating facilities within, and/or encroaching upon, any county rights-of-way or easement. Right-of-way Use Permit instructions and application can be found at:

<https://www.weld.gov/Government/Departments/Public-Works/Permits>

- Overlapping Easements. Weld County will not replace overlapping easements located within existing right-of-way or pay to relocate existing utilities within the county right-of-way.
- Tracking Control. Per Weld County Code, Section 8-14-50.D, your project may require permanent or temporary tracking control to prevent mud or debris from being tracked onto a county road. For information about tracking control go here:

https://library.municode.com/co/weld_county/codes/charter_and_county_code?nodeId=CH8PUWO_ARTXIVROACPO_S8-14-50PEHOGERE

- Improvements and Road Maintenance Agreement. Public Works may require an Improvements Agreement for one or all the following reasons:
 - Off-site public improvements
 - Road Maintenance Agreement
 - Construction Maintenance Agreement
 - Access Improvements Agreement
 - On-site improvements for subdivisions/PUDs

An Improvements and Road Maintenance Agreement will detail the approved haul route(s), outline when offsite improvements will be triggered, and include a maintenance agreement for the haul routes. Possible mitigations included in the road maintenance agreement may include, but are not limited to: dust control, specified haul routes, damage repairs, and future improvement triggers. An example agreement is available at:

<https://www.weld.gov/files/sharedassets/public/departments/public-works/documents/usr-spr-permits-improvements-agreement-template.pdf>

- Grading Permit. Per Weld County Code, Section 8-12-30.B, a Weld County Grading Permit will be required if disturbing more than one (1) acre unless your project qualifies for a grading exemption. To learn more about grading permits or to see if your project qualifies for an exemption go here:

https://library.municode.com/co/weld_county/codes/charter_and_county_code?nodeId=CH8PUWO_ARTXIIGRPEPO

- Construction Stormwater Permit. A Construction Stormwater Permit is also required with the State for disturbing more than one (1) acre. Contact: Colorado Department of Public Health and Environment, Water Quality Control Division, Permit Support Staff at: 303-692-3517.
